~~PROJECT COWLES~~

CRYPTONYM: AEROLE

1. OBJECTIVES:

- a. To preserve the feeling of national identity of the Lithuanian people;
- b. To maintain and foster among the Lithuanian people an attitude of irreconcilability toward the communist regime;
- c. To maintain and strengthen the pro-Western orientation of the Lithuanian people.

2. ORIGIN AND POLICY GUIDANCE:

a. Origin

- (1) NSC Directive 54-12.
- (2) Clandestine Services General Plan for FY 1957--Cold War, Annex A: Operations, List No. 2: Denied Areas, Part 4: Soviet Russia, Checklist Item No. 1, "Internal propaganda - Political Action."

b. The Project, in its present form, originated at Headquarters in Fiscal Year 1954 and was renewed for Fiscal Year 1955 in the CS Operations Program.

3. SITUATION:

The USSR has controlled the former Republic of Lithuania since occupying and annexing the nation in June-July 1940. This control was broken only by the German occupation of the area during 1941-1944. The United States does not recognize the legality of the Soviet absorption of Lithuania as a constituent "republic" of the USSR. The Soviets have killed or deported a significant portion of the Lithuanian population, and many fled to the West in 1944-1945, but the great majority of those remaining in Lithuania today are understood to be thoroughly anti-Soviet. The policy of the United States is to seek the eventual liberation of Lithuania by peaceful means. The objectives set forth above constitute covert implementation of this policy.

CIA has been in contact and in association with the Lithuanian emigre organization VLIK (Supreme Committee for Lithuanian Liberation), currently based in Germany, since 1949. The organization was selected at that time both for its contact with Lithuania and

~~SECRET~~

SECRET

- 2 -

because of its prominence among Lithuanian emigres. VLIK has in the past assisted in the spotting and recruiting of agents for infiltration into Lithuania. The organization is no longer engaged in this activity directly, but it continues to lend its prestige to certain penetration operations and is very active in various propaganda and informational activities directed against the USSR. VLIK continues to be recognized among the emigration as a major voice of free Lithuania. Present VLIK radio outlets include Radio Rome, Radio Vatican, and Radio Madrid. The latter Madrid facilities became available on 1 January 1955. They are now in the process of being developed as an effective instrument of propaganda and therefore require greater financial support than the other two stations. The maintenance of one covert associate in Washington in support of our PW activities has been found essential for the successful implementation of this program. A special VLIK section to handle the Madrid broadcasts also will have to be established. During the past year the activities under this project with respect to radio broadcasts expanded considerably. Therefore, it is necessary to continue this project in accordance with the proposals outlined below.

4. PROPOSAL:

To provide financial support and direction from Headquarters for the Lithuanian emigre organization, VLIK.

5. OPERATIONAL OUTLINE:

a. Tasks:

The main task of this project is to subsidize VLIK efforts in the PW field by helping to develop and to maintain VLIK's psychological warfare section and broadcasts to the homeland. Other tasks to implement the objectives in paragraph 1 are as follows: initiate preparatory work for black broadcasts into the target area; keep alive Lithuanian cultural and political traditions by maintaining liaison with and supporting other Lithuanian emigre groups in addition to VLIK; rendering support and guidance for VLIK regular daily broadcasts to the homeland via Radio Rome, Radio Vatican and Radio Madrid, and other available outlets; assisting in the expansion of other VLIK broadcasting and PW activities (as per paragraph 11 e (1) below).

b. Key Personnel:

- (1) The Chairman of VLIK's Executive Committee now located in Germany is ALPOLK/6. He is under contract as a covert associate and is paid \$1.00 per annum. No reimbursement for expenses is involved.

SECRET

SECRET

- 3 -

(2) AEPOLC/10, a covert associate, is employed under contract in the Washington area. He is now a citizen of the US. He is engaged in preparation of data and material in support of PP activities and VLINK broadcasts.

(3) The Director of VLINK's Psychological and Political Warfare program was until 1 May 1955 AEPOLC/7, a contract agent employed in Germany. His contract has been terminated as of 1 May 1955, and we are now in the process of clearing a substitute.

(4) Chief editor of the VLINK Radio Section to be employed in Germany is AEPOLC/14. Operational Clearance has been obtained for him, and it is contemplated to employ him as a contract agent. He will depart for Germany with his wife and household effects for two years PCS on or about 1 July 1955.

(5) It is expected that the chief of the Madrid Radio Section will be directly employed by VLINK for a period of two years. Operational Clearance has been requested. This individual will be given, indirectly, a guarantee by us that in case VLINK fails to meet its obligations to employ him for a period of two years, we will assume the financial responsibility in accordance with the provisions of his contract with VLINK. CIA will assume travel obligations to Madrid for subject and family.

c. Indigenous groups and/or leaders--N.A.

d. Target Groups:

(1) The Executive Committee and the deliberative body of VLINK are located in West Germany. In view of the newly-proclaimed German sovereignty the parties comprising VLINK are now negotiating to move VLINK Headquarters to another location, possibly the US. VLINK propaganda activity is performed in various parts of the world. The Government and CP of the USSR are targets of VLINK propaganda as is the Soviet regime in the Lithuanian SSR.

(2) The target area for operations under this project is the Lithuanian SSR. The target groups in the target areas are:

(a) The Lithuanian population of the Lithuanian SSR as a whole.

(b) Certain officials and institutions of the Soviet regime in the Lithuanian SSR.

SECRET

- 4 -
SECRET

e. Duration:

- (1) CIA association with and support of VLIK is viewed as a continuing activity and an integral part of our cold war operations, so long as VLTK continues to be a suitable instrument for the implementation of US cold war policy.
- (2) The maintenance of our support personnel in assisting the PP effort also is viewed as a continuing activity. In the event of open hostilities, the covert personnel will be used to support hot war operations.

f. Graphic Illustrations: N.A.

6. SECURITY:

a. Cover:

- (1) VLTK is operating in Germany as an independent Lithuanian emigre organization whose main political aim is the eventual liberation of Lithuania and the strengthening of Lithuanian culture and national spirit among Lithuanian emigres in the West as well as in the homeland. VLTK is also affiliated with other Lithuanian organizations throughout the world and especially with the American-Lithuanian Council in the US. Since VLTK is a bona fide political emigre organization, no special cover for its activities is necessary.
- (2) The covert associate who is active in Washington is working for CIA on a part-time basis. He is at present an employee of the Library of Congress and no other cover arrangement is necessary.
- (3) It is envisaged that the Director of the PP Section will be employed by VLTK directly and will therefore assume his cover of a VLTK employee. In case he is given PP training in Washington a cover of a research analyst will be arranged for him.
- (4) The candidate for chief editor of the VLTK Radio Section, while in training in Washington, will be given the cover of a research analyst. Upon his departure for Germany he is to assume his cover of a VLTK employee.
- (5) The chief of the Madrid Radio Section is to be employed directly by VLTK and no cover arrangements for him are necessary.

SECRET

SECRET

b. Knowledgability:

- (1) The chairman of VLIK, as well as the Chairman and key members of VLTK's Executive Committee are aware of CIA support. The members of the VLTK assembly are under the impression that contributions to their funds come from a major Lithuanian organization in the US and from other private and public Lithuanian sources.
- (2) The covert associate is witting of US Government interest only.
- (3) AFMEL/14, the chief of the VLTK Radio Section, and the chief of the Madrid Radio Section will be witting of US Government interest only.

c. Operational Security:

Contact between the Case Officer, covert associate, agents, and VLTK personnel is conducted in accordance with proper and secure tradecraft and surveillance procedures.

d. Risks:

Contact with associates, agents and VLTK personnel is conducted in a secure manner and no major risks are anticipated. In the event that US interest in VLTK is discovered by the West German or Spanish governments, this will have no adverse effect on US foreign relations since such interest has long been taken for granted by both governments.

e. Personnel Disposal:

No disposal problems are anticipated.

f. Master Plan:

In case of need, CIA agents and witting VLTK members stationed abroad would be evacuated in accordance with the existing Agency emergency evacuation plan.

7. COORDINATION:

a. Relation to Other Projects:

- (1) This Project is closely tied to the ALCHAMP Project inasmuch as VLTK lends its prestige and cooperation to PI operations into Lithuania.

b. Significance Within Overall Program in Area:

This Project is an integral part of the overall Country Program

SECRET

SECRET

- 6 -

for the USSR in the PP field in line with the NSC Policy Directive 54-12.

c. Extent of Coordination:

- (1) EE Division was originally responsible for and is fully cognizant of CIA contact with VLIK. PP training for AEPOL/14 and possibly for the chief of the VLIK Psychological Warfare will be coordinated with Training Division. Matters pertaining to VLIK radio broadcasts from Madrid were coordinated with WE Division and the Information Coordination Division.
- (2) No coordination is required with other agencies; however, an informal contact is maintained with the Department of State to exchange information relative to Lithuanian emigre affairs in general.
- (3) Contacts with the foreign governments of West Germany and Spain have been established by VLIK representatives.

d. Control:

a. Nature of:

Control of VLIK is effected through financial support and the possibility of withdrawal of such support if, at any time in the future, we should find that VLIK's productivity does not warrant further support.

b. Administrative Plan:

An Administrative Plan covering the subsidy of the project was approved on 28 December 1953 by the DD/P.

c. Reports:

VLIK and AEPOL/14 are to submit reports on their activities to Headquarters via field channels. Reports will be submitted in accordance with Agency regulations.

9. BUDGET DATA:

a. Overall CIA funds required in Fiscal Year 1956:

(1) Personnel

(a)	AEPOL/10 (Covert Associate)	\$1,800.-
(b)	AEPOL/14 (Contract Agent)	4,500.-
(c)	Head of Madrid Radio Section	4,000.-
		\$9,700.-

		\$6,150.-

(3) Transportation

AEPOLB/1A household goods

- (4) Subsidy (in 4 quarterly installments)
- (5) Material
- (6) Facilities
- (7) Equipment
- (8) Entertainment

GRAND TOTAL:

b. Availability of Agency Funds Required:

The sum of .- for the continuation of the Project is requested from the USSR Fiscal 1956 Country Program appropriation.

c. Non-CIA Funds: None.

d. Foreign Currency:

Payments in the field will be made in DM's provided through normal Station facilities.

e. Funding:

- (1) Funds are released to the field for transmittal to VLIK in accordance with the Administrative Plan. Accountability for subsidy received is submitted by VLIK via field channels in accordance with current field regulations and directives and provisions foreseen in the Administrative Plan.

SECRET

SECRET

- 8 -

(2) Salary payments to AEPOLC/10 and AEPOLC/14 are made by Headquarters.

f. Financial History:

CIA payments to VLIK in the form of PI and PP subsidies since 1949 to the end of Fiscal Year 1955 amounted to \$112,284.00. For Fiscal Year 1955 VLIK has received CIA subsidies in the amount of \$39,404.00.

g. Future Requirements:

It is expected that budget data for Fiscal Year 1957 will be the same as for Fiscal Year 1956. If any changes in the Project occur, an amendment will be requested.

10. SUPPORT DATA:

a. Total CIA Personnel:

A part-time Case Officer is presently handling the Project in the field. The services of a full-time Case Officer in the field are required in order to conduct this Project in a secure and efficient manner.

b. Training:

- (1) Approximately 3 weeks of PP training will be required for AEPOLC/14 and, if possible, for the head of the VLIK Psychological Warfare Section.
- (2) Instructors are available at Headquarters.
- (3) No unusual courses of training are required.
- (4) Coordination with the Office of Training will be effected.

c. Material:

No requirements in material will be required from CIA.

d. Communications:

No unusual communications support is required.

e. Other CIA Support:

- (1) Main support of VLIK is based on our subsidization of their PP effort in the amount of [] . In Addition, we are supporting the VLIK effort by sending proper guidance and material (in the original language or translated) from SR Division for their broadcasts and other PP activities.

SECRET

SECRET

- 9 -

- (2) Support required for the maintenance of the covert associate in the Washington area includes procurement of a limited amount of office equipment and supplies procured commercially and a strongbox obtained through SR Logistics.
- (3) Support required for the maintenance of AFPOLE/14 consists of the following:
 - (a) A limited training program in PW activities prior to his departure for Germany.
 - (b) Procurement of a furnished apartment cleared by I & S to be used by him as a safehouse while he is in training and later while he is employed in the US before departure for Germany.

2. Support required from other United States agencies:

Request from State Department for re-entry permit for Chairman of the VLKK Executive Committee.

III. GENERAL CONSIDERATIONS:

a. Current Status:

- (1) The portion of the Project concerned with the support of VLKK represents a continuation of activity previously performed under Projects BRAVIN PW, CAVIAN PW, ANGARD PW and ALBURN PW. CIA contact with VLKK has been continuous since 1949. A case officer is now in the field who works part-time on PW matters and keeps contact with VLKK. As stated previously, the various political parties comprising VLKK are currently negotiating for the transfer of VLKK Headquarters to another location, possibly the US.
- (2) The covert associate in Washington has been under contract since 1 August 1953. At that time and until October 1954 he was employed full time by CIA and worked in a partially subsidized private apartment which served also as his living quarters. Inasmuch as he obtained employment at the Library of Congress in August 1954, a new contract was executed for him in October of that year as a part-time CIA employee. He no longer receives an allowance for quarters.
- (3) The director of VLKK's Psychological and Political Warfare program was from 15 October 1953 until 1 May 1955 AFPOLE/7, a contract agent employed in Germany. His contract has been terminated and we are now in the process of clearing a substitute and initiating a contract for him.
- (4) Chief editor of the VLKK Radio Section to be employed in Germany is AFPOLE/14. Operational Clearance has been

SECRET

SECRET

- 10 -

obtained for him, and it is contemplated to employ him as a contract agent. He will receive limited PP training in Washington and will depart for Germany for a two-year assignment approximately 1 July 1955.

(5) It is expected that the chief of the Madrid Radio Section will be directly employed and brought to Madrid by VLIK for a two-year period. Operational Clearance has been requested. This individual will be given, indirectly, a guarantee by us that in case VLIK fails to meet its obligations to employ him for a period of two years, we will assume the financial responsibility in accordance with the provisions of his contract with VLIK.

b. Commitments:

No special commitments were made to VLIK, ARNOLD/10, ARFORB/14, the director of the Psychological Warfare Section or the head of the Madrid Radio Section.

c. Effectiveness:

The Project has accomplished the following:

- (1) Supported financially the publication of the anti-Soviet ELSA Bulletin. This Bulletin is published once every two weeks in the Lithuanian language and occasionally in German, French and Italian.
- (2) Supported with propaganda material radio broadcasts to Lithuania via RIAS, VOA, RPT (Polish Section), West German stations, Radio Rome, Radio Vatican and Radio Madrid.
- (3) Provided an Indian anti-Soviet organization with propaganda booklets on the Soviet occupation of Lithuania and Latvia, in an endeavor to counteract Soviet propaganda in India concerning the well-being of those countries under Soviet rule.

d. Anticipated Results:

It is believed that continuation of this Project will contribute to the attainment of the PP objectives outline in paragraph 1 above.

e. Evaluation:

The Project is under constant assessment by qualified case officers at Headquarters and in the field.

SECRET

SECRET

- 11 -

f. Policy Questions:

The advisability of moving VLIK Headquarters to the US is currently being discussed with officials of the State Department. The Agency position is that the geographic location of VLIK is immaterial so long as it performs the functions required of it.

g. Congress: N.A.

h. Extra-Embassy action: N.A.

i. Proprietary Companies: N.A.

j. Special Considerations: N.A.

k. Liquidation:

(1) Inasmuch as VLIK is an independent political organization, no liquidation problem is involved other than evacuation in an emergency of witting members.

(2) Liquidation of activities of the covert associate and the contract agent pose no disposal problem.

l. Intelligence exploitation is carried out under ANCHAMP. Intelligence produced as a by-product of PP operations will be processed through VI channels.
